PTR Immersive Training Library

Step into real workplace moments and practise what you do.

GET IT ON THE
Meta Horizon Store

Coming soon to PICO and other XR platforms

Practise the moments that matter at work

Not a video. Not a lecture. People step inside the moment, make the choice, see how it lands, then reflect.

Free library

10 experiences on Meta Quest, free to download

AI conversations

Practise out loud with characters who respond to what you say

Your own scenarios

Create scenarios for your organisation and run them in the app

Facilitated workshops

Run sessions yourself with our guides, or have PTR run them with your team

Everyday Inclusion has been used in workplace training since 2018.

At a glance

10
experiences

4
collections

10–25
minutes each

Free
on the Meta Horizon Store now

Headsets	Meta Quest 2, Quest 3, Quest 3S and Quest Pro. Coming soon to PICO and other XR platforms
How it runs	Seated or standing, depending on the experience. No sign-in to play
Languages	Menus in 10 languages, subtitles in 8, Everyday Inclusion voiced in English, German and French
After each one	A guided reflection on the choices you made, so the learning sticks
For trainers	A facilitator guide and session plan for every experience

The library home, where every experience starts

Equal Reality

Built with Equal Reality, a subsidiary of People Tech Revolution.

Everyday Inclusion

3 parts | 25 min

You join a team meeting as Tamara, then return to it as Victor, the manager running it. You spot the bias, then see how each choice you make changes who gets included.

Finding Common Ground

2 parts | 15 min

As Jack, you and your partner are refused a gym's partner deal for being a same-sex couple. As Freddy, the manager, you step in and choose how to give respectful feedback.

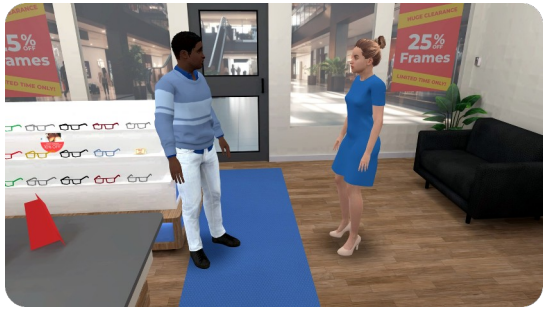
MindShift

Five short experiences on everyday moments at work.

In Plain Sight

1 part | 10 min

You are Danielle, head of marketing, and your client mistakes you for a secretary.



Ally Assist

1 part | 10 min

You are Jasper, a store manager, when a customer's racist comments are brushed off.

Making Assumptions

1 part | 10 min

Assumptions people make about what a colleague with disability can do.

Glass Ceilings

1 part | 10 min

You are Tash, new to the team, when a woman's promotion is mocked.

Inclusive Perspectives

1 part | 10 min

You are Kira when a colleague calls the new starter a "diversity hire".

Leadership

Lift VR 2 scenarios | 10 min

1. Heated Discussion

Two colleagues, Quinn and Leo, walk out of a meeting arguing about a woman who called Leo out for a joke. Do you step in?

2. Sensitive Disclosure

Sanaa, who reports to you, steps in upset: a colleague told her she got her role because she is a woman. She asks what you think.

In both rides you answer out loud, in your own words, then rate your impact and watch yourself back.

Medical & Health

Two healthcare experiences on speaking up for patients and nurses.

Say It at the Bedside

4 parts | 15 min

You are Lorna, a patient a staff member brushes off. Then, as Priya and Denise, you see a nurse skip hand hygiene and choose how to give feedback, then practise saying it out loud.

Patient experience | Hand hygiene | Giving feedback

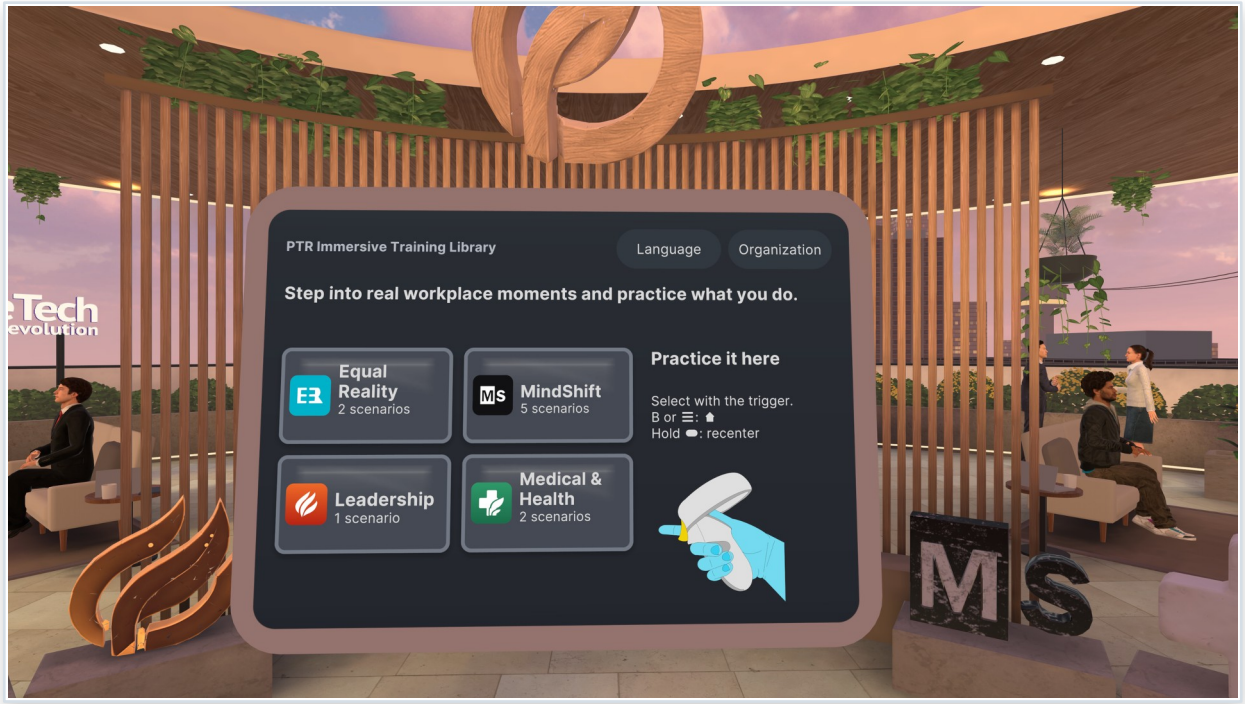
Not on My Ward

2 parts | 15 min

You are Linh, a nurse, in the breakroom, then Tessa at a patient's bedside. You spot racism and bias toward nurses, then practise speaking up.

Nursing | Racism and bias | Speaking up

The library app



The library home: one tile per collection. Put the headset on and choose an experience.

Four collections, 10 experiences

Equal Reality 2, MindShift 5, Leadership 1, Medical & Health 2

10 languages

English (Australia, US, UK), German, French, Spanish, Portuguese, Italian, Dutch and Polish. Some in Beta

Subtitles in every experience

Subtitles in 7 more languages for every experience. Everyday Inclusion is also voiced in German and French

No sign-in, works offline

Every experience is inside the app. No account and no internet needed to play

Link a headset to your organisation

Press Organisation in the app to show a code; an admin enters it in the PTR Portal. No keyboard, no login

Start free. Grow with your organisation.

Free

For anyone with a headset

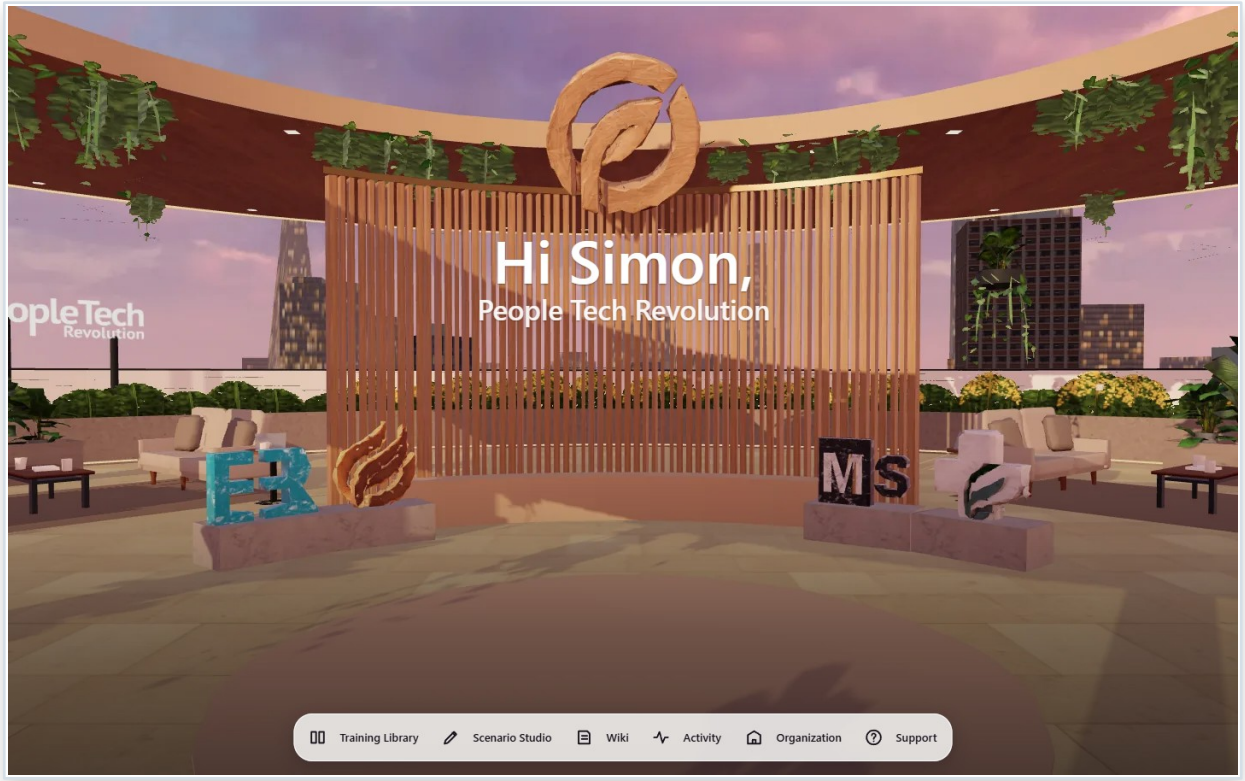
- All 10 experiences on the Meta Horizon Store
- Guided reflection after every experience
- A trainer guide for every experience, in the PTR Portal
- Works offline, no sign-in in the headset
- Connect your headsets and see usage

Organisation

Plans for your team

- Everything in Free
- AI conversations that respond to what you say
- Create your own scenarios and run them in the app
- LMS integration and facilitated workshops

The PTR Portal



Trainer wiki

How to run workshops, session plans and a facilitator guide for every experience

AI conversations

Practise conversations with AI characters, in the headset or the browser

Scenario Studio

Create and review your own scenarios

Organisation

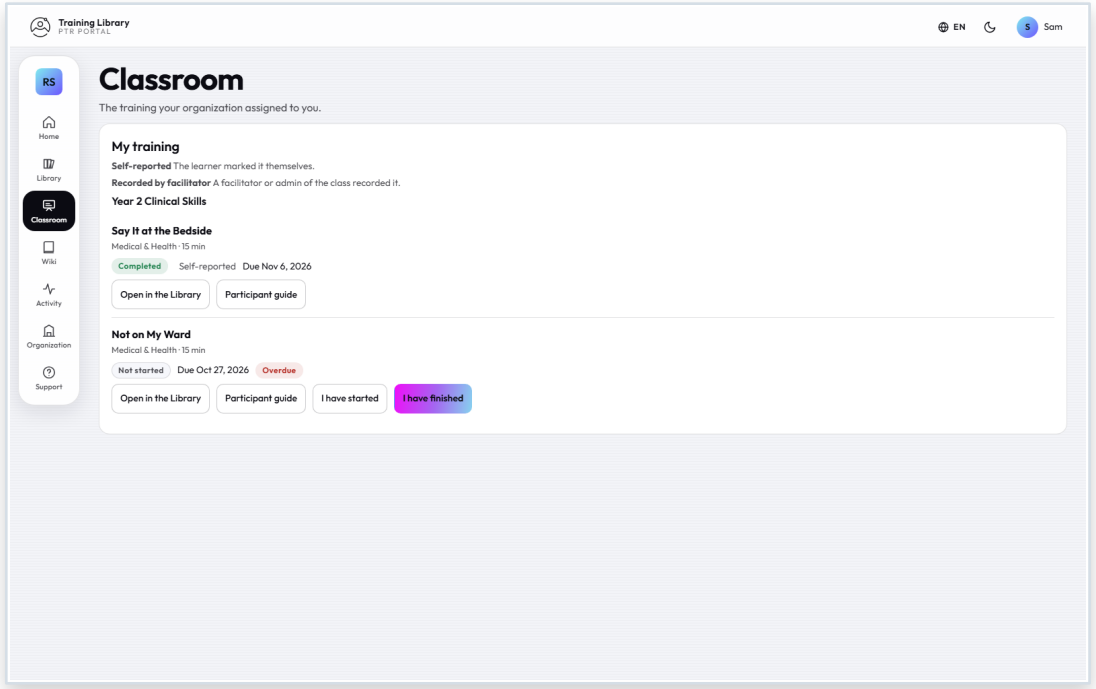
Invite your team, connect headsets and see usage

LMS integration

Connect training records to your learning system

Create your account at portal.peopletechrevolution.com

The PTR Portal for your organisation



A learner's training in Classroom (demo organisation). The portal is free and works in any browser, no headset needed.

Works with the headset library

Link a headset: it shows a code, you enter it in the portal
The same titles in the portal Library and the app
Coming: launch, pause or restart a module on every headset at once
Coming: a room view showing where each headset is facing

Learners and students

My Training: modules assigned with due dates; mark them started and finished; open the Library

Employees

Join your organisation by invite or approved email domain and open the Library and the Wiki

Facilitators and educators

Classroom: create classes, assign modules with due dates, follow progress, record completion, export CSV

Admins

Invite people, manage roles, choose your organisation's apps, link headsets and see usage

Your data region

Australia today. United States and EU planned. Other regions on request.

Get started
